

Torricella Verzate, 13/06/2022

SUBJECT: REACH Regulation no. 1907/2006 of 18.12.2006

Dear customer,
being in progress by our in-depth analysis of the REACH Regulation (the new Management System of Chemicals), which has been in force since June 1, 2007, we are tell you that the product supplied by us is classified as an article with no intended release under the REACH Regulation upgraded to the latest version of 10/06/2022.

The product is therefore not directly subject to registration.

In any case, it is our clear desire assure that all substances in articles
We are providing that, where necessary, will be pre-recorded and previously recorded by our suppliers.

This is to give you the assurance that the products supplied by us will always remain on the market, being REACH compliant.

In the situation extremely unlikely that a product of the MSC contains the presence of SVHC (<http://echa.europa.eu/candidate-list-table>) <0.1% by weight (1,000 ppm) will be under our care art. 59, par. 1. Notify the European Chemical Agency presence and convey instructions adequate in this regard.

With best regards.

Mantica srl
